*See Ord. #175*

The Board of Trustees of the Town of San Anselmo Do Ordain as Follows:

Section 1. Section 11 of Ordinance No. 162, being an ordinance entitled: "An ordinance defining garbage, providing for and regulating the keeping, collecting, and disposing thereof; making it unlawful to spill or deposit garbage in public places or upon public streets and alleys; fixing rates for collection of garbage; providing for the letting of an exclusive contract for the collection of garbage; providing a penalty for the violation of any of the provisions of this ordinance; and repealing all ordinances in conflict herewith," passed and approved August 23, 1920, is hereby amended to read as follows:

Section 11. The rates for collection of garbage in said Town are hereby fixed and established as follows:

For all garbage collected anywhere in that part of said Town herein defined as "the flat" the sum of sixty cents per month for each collection per week from any can or receptacle having a capacity of thirty gallons or less, and the sum of eighty-five cents per month for each collection per week from any can or receptacle having a capacity exceeding thirty gallons but not exceeding sixty gallons;

For all garbage collected in any part of said Town herein defined as "the hill" the sum of eighty-five cents per month for each collection per week from any can or receptacle having a capacity of thirty gallons or less, and the sum of one dollar and thirty-five cents per month for each collection per week from any can or receptacle having a capacity exceeding thirty gallons and not exceeding sixty gallons.

For any single collection of garbage not part of a regular service the rates for collection shall be one-half of the monthly

rate for one collection per week, according to the can or receptacle, the premises and the part of said Town from which said collection is made, and in the computation of said half rates, any fraction of a cent shall be disregarded.

Section 2. This is an ordinance for the protection of the public peace, health and safety and one of urgency and shall take effect and become operative from and after its passage and approval. The facts constituting the urgency in this instance are that garbage is collecting in said Town in and upon various premises therein and is not being promptly removed or disposed of, thereby endangering the health of the residents of said Town, and it is necessary for the proper protection and preservation of the health of said residents that this Ordinance be passed and go into effect immediately upon its passage and approval.

I hereby approve the foregoing Ordinance this 1st day of May, 1922.
