Lot Coverage		
FAR ²		
Dwelling/Building Height Above Average Grade (roof peak) ³		
Number of Stories		
Zoning		
Flood Zone		

- Notes:
1. Minimum parking dimensions are 9' wide by 19' long by 7' high.
 2. **Lot Coverage** applies to flatland residential in R-1, R-2, and R-3 zones and to Professional zones. It is defined as the land area covered by all buildings and improvements with a finished height above grade of 36" or more, including all projections except for eaves which project less than 2' from the face of a building.
Floor Area Ratio (FAR) applies to Residential zones R-1-H, R-1-C and R-1 and to all Commercial zones. It is defined as the ratio between the total floor area of a building(s) on a lot and the area of that lot in gross square feet.
 3. Average Grade: The average slope of the land in the building footprint only.

Submittal Requirements

For Planning Commission Review

- Completed General Planning Application Form, Supplemental Questionnaires (if applicable)
- Digital set of plans, including site plans(s), floor plans, landscape plans, erosion (plus elevation plans for new construction)
- One PDF –Portable Document Format file of the all applications and exhibits.
- Fees
- Environmental Initial Study Questionnaire (if applicable)

For Administrative Review

- Completed General Planning Application Form, Supplemental Questionnaires (if applicable)
- Digital set of plans, including site plans(s), floor plans, landscape plans, erosion (plus elevation plans for new construction)
- One PDF –Portable Document Format file of the all applications and exhibits.
- Fees

General Requirements

- Plans should be clear and legible.
- Have a north arrow.
- Accurately scaled, graphic scale provided on each sheet. Scale minimum of 1" = 10' or 1/8" = 1' for site plans, and a minimum of 1/4" = 1' for floor plans and elevations.
- Be labeled with the project name and the name of the firm or individual who prepared the plan(s).
- Be folded to 9" x 14" maximum with the project title showing.

Site Plan

- Property boundaries and easements (attach any deed restrictions)
- Setbacks and building heights dimensioned (all structures located on the property).
- Foundation and rooflines of all existing and proposed structures located on the property.
- Foundation lines of all neighboring structures located within 20 feet of any property line.
- Driveways, parking, loading spaces, landscaped areas, patios, etc.
- Street right-of-way line(s), curb line(s) or pavement edge(s), sidewalks, and parkways.
- Location and type of all trees 22 inches in diameter or greater, measured 4.5 feet above grade. If you are removing or significantly pruning a tree(s) of this size or greater then a tree permit is required (see Dpt. of Public Works).
- Fences and walls.
- Yards and open space areas.
- Storage areas and screening.
- Topographic features: streams, drainage channels, ditches, rock outcroppings, etc.
- Existing visible landmarks (utility poles, street lights, fire hydrants).
- Accurate contour lines:
 - Slopes below 5% - contours not required
 - Slopes between 5% and 15% - contour interval must be two feet
 - Slopes exceeding 15% - contour interval must be five feet
- Flood Zone (if applicable)
- Other information to deem this application complete may be requested, including story poles.

Floor Plans

- Existing and proposed walls, stairs, windows, doors, etc.
- Other information deemed necessary to evaluate this application.

Building Elevations

- Existing and proposed grade, wall, floor, and ridge height, roof pitch, as well as the appearance of the structure(s).
- For Planning Commission Design Review:
 - Color rendering of proposed exterior addition (one copy).
 - Color board (8"x11") to include exterior finish/color, window trim, roof material, siding materials, etc. (one copy)
 - Photographs of the existing property and abutting neighbors.
- Dimension all second story windows from finished floor to bottom of window sill.
- Other information deemed necessary to evaluate this application.

Shade Study (if applicable)

- Provide a study showing the shade created by the project during all four seasons at 9am, noon, and 3pm to assist in determining the impact to natural light to neighboring properties.

Grading Permit (if applicable)

- Provide the amount of cut and fill required for the project. If the total amount of cut and fill exceeds 100 cubic yards then a grading permit, including an application and fees, is required to be reviewed by the Planning Commission.

Landscape Plans (if applicable):

- The type, size, and spacing of plants..
- Retaining walls, lighting, existing and proposed contours, if applicable.
- Other information deemed necessary to evaluate this application.

How long will it take?

Within 30 days of application submittal, Planning Division staff will review this application for completeness of required information and/or fees, and if necessary a notice of incompleteness will be sent to the applicant. Applications cannot be processed until accepted as complete.

Once the application is determined complete for processing, either a Planning Commission public hearing or administrative decision date will be scheduled. The Planning Department will provide a 10-day notice by mail to those property owners within 300' of the subject property. The Planning Commission meets the first and third Mondays of each month.

Other Important Departments/Agencies:

<u>Ross Valley Fire Service</u> : Contact the Fire Inspector for their requirements (e.g., sprinklers, hydrants, turnouts, Urban Wildland Interface Code (WUI) regulations, etc.).	415/258-4688
<u>Building Division</u> : If you are increasing the occupancy (number of people) and/or altering the structural character of a building, you may trigger special requirements.	415/258-4616
<u>Public Works Department</u> : a) A permit from DPW shall be required to excavate, grade, or fill where twenty-five (25) or more cubic yards of earth or material are moved (and may require Planning Commission review; b) Permits to excavate, grade, or fill shall not be issued for an activity commencing in, or continue into, the rainy season (October 15th to April 15th) unless the Public Works Director determines that no imminent public or private safety concerns exist or that grounds for an exception apply. All required temporary and/or permanent erosion control measures shall be in place prior to October 15 th ; c) construction or repair of any pier, retaining wall, slope protection structure, dam, bulkhead, building, bridge or other structure in, over, or within fifteen (15') feet of the bank of any watercourse first requires a permit from the Public Works Director.	415/258/4616
<u>Marin Municipal Water District</u> : Your project may generate the need for additional water.	415/924-4600
<u>Ross Valley Sanitary District</u> : if you are adding on or building new, you may need to upgrade or install a lateral sewer line.	415/461-1122
<u>Ross Valley School District</u> : If adding on or building a house, school fees will likely be charged.	415/454-2162
